

Annex 3 (Prices) to the zMRDB User Agreement

Price list relating to use of the zMRDB

I. Test operation (test environment) prior to transfer to live operation

- 1 One-off installation of the test application: **€ 1,000**
- 2 Monthly fee for test access (calculated for each calendar month started): **€ 100**

“Test operation” is primarily used for installing the connection to the zMRDB and is obligatory for new zMRDB users. Once the “test operation” has been successfully carried out, the switch is made at the customer’s request from the test environment to the live environment.

II. Live operation (productive environment)

- 1 **One-off provision fee (exclusive of VAT)**
A one-off fee is charged for providing access to the central master routing database (zMRDB): **€ 10,000**
- 2 **Annual fee for using the zMRDB (exclusive of VAT)**

An annual fee is charged for ongoing use of access to the central master routing database (zMRDB) (if the Agreement begins during a calendar year, the annual fee for using the zMRDB is calculated monthly pro rata until the end of that calendar year): **€ 15,000**

All prices are net
